

# TOP TIPS for supplying your own images for our calendars

In order to create a high quality printed product, we recommend that you supply images with resolutions of 300 dpi or a minimum of 150 dpi. Image resolution can be adjusted using most image editing software programs. My Fifo Family supports images in both JPEG and PNG formats.

My Fifo Family can adjust image dimensions (and resolution) to best fit your picture if needed but for best results, you should crop or resize images to closely conform with the size and orientation of the layout in our calendar. For example, a picture oriented in a portrait format may not resize properly in our landscape oriented calendar.

Recommended image dimensions:

## Cover

..... 313 mm / 3697 px .....

.....  
223.5 mm / 2640 px  
.....

## Monthly Pages

..... 196 mm / 2315 px .....

.....  
223.5 mm / 2079 px  
.....
